When we **go over/correct assignments in class, I expect the corrections to be made at this time.** It is also the time that I will clarify any questions you might have.

Questions: When you have a question, you must wait until I have designated the time to answer them individually. Just because you have your hand raised does not mean I will answer the question at that specific time. I do like to answer questions and invite the class to listen but only if they benefit the entire classroom. If I feel the question is better suited for an answer before/after school I will tell you. If you continue to ask questions of this type during class, at my discretion, I will stop answering your questions during class. You will follow up with a counselor to discuss strategies to correct this behavior.

Inappropriate language: Although I also grew up in a generation where profanity is more accepted, it will be expected that our classroom will maintain a formal professional environment. The use of inappropriate language is not permitted within the classroom. If you insist on using inappropriate language you will be sent to your counselor to learn strategies to avoid this.

Disruptive behavior: Our classroom is a very active environment but it also needs to be a quiet environment for effective listening to take place. Getting one's work done or having an acceptable grade does not give you the right to be disruptive.

Referrals: TUHS/UHS is your learning environment and is for all students. Disciplinary referrals in my classroom will only be used for students who persist on disrupting this environment after having met with
